I am from Bangladesh and studying Master's in Informatics at the Christian Albrechts Universität zu Kiel (CAU). At the moment I am working on my master thesis and looking for a job of my personal interest. For a long time now, I have enjoyed arranging food nights with my friends and colleagues. I also have experience in cooking for 50-100 people in some events, organized by local student organizations e.g. Bangladeshi Night. I have some knowledge of spices especially in Indian Cuisine. I would be very happy to gain some experience in East Asian cuisine and working at your restaurant.

## EXPERIENCE

### Seebar Kiel, Kiel— *Kitchen Helper*

2020 - 2021

I have worked as a kitchen helper, preparing ingredients for the chefs. During this work I gathered some knowledge of chopping vegetables and also kitchen cleanliness.

### Forstbaumschule, Kiel— *Service*

2021-2022

In the Forstbaumschule I worked as a general service member, serving foods and drinks to the guests.. During the job I learned the manners of communicating with the guests.

### Cloudflight, Kiel— *Software Developer*

2021- 2024

At Cloudflight, I have worked as a Software Developer. This was my main job during my studies. I gathered a lot of professional experience in the field of my study.
